

SoftPath Technologies signs Registered Partner agreement with K2.

Livonia, Michigan

SoftPath Technologies today announced signing of Registered Partner agreement with K2, a leader in the area of delivering enterprise workflows and process-driven applications that improve business efficiency. Under this agreement SoftPath Technologies will recommend, define, design, build, deploy and manage technology solutions for their clients using K2 platform.

K2 applications are flexible, scalable and can be set up to automate and manage business processes – pulling together people, services, information and systems into a single application that helps drive business. K2-based solutions are deployed by a growing number of the global Fortune 100 to increase business efficiency, save money and reduce risk. More than one million users rely on K2 to streamline operations, save money and reduce risk.

Speaking about this partnership, Faizulla Shaik, VP, R&D of SoftPath Technologies remarked, "By leveraging the infrastructure that K2 platform delivers, we plan to provide solutions in much shorter period than earlier, this would mean faster time to market and lower costs for our clients, a perfect solution for majority of small and medium enterprises worldwide. Through this partnership we look forward to offer pinpointed solutions to specific industry needs."
